Mission

CONCEPT

“THE SUN NEVER KNEW HOW GREAT IT WAS UNTIL IT HIT THE SIDE OF A BUILDING.”
— LOUIS I. KAHN

Many of the new technological possibilities and integration potentials of solar energy are not yet widely known or applied in current design practices due to lack of knowledge.

Our main goal is to encourage the construction of solar buildings by demonstrating that beauty and solar technology can be synonyms.

Through real-world examples and success stories, we demonstrate that solar buildings can achieve high standards of aesthetics, construction quality and sustainability. *SOLARCHITECTURE* aims to inspire both architects and clients to embrace new building concepts.

MAIN PARTNERS

The new website, as a multidisciplinary and inclusive Swiss platform on solar energy, will be managed and defined thanks to the collaboration between four main partners.

With the support of:

SUPSI

ETH*zürich*

SWISSOLAR 

 **swissenergy**

OTHER PARTNERS:

SYN/AGE 
SOLAR BUILDING SKIN

3S Swiss
Solar
Solutions

archi **espazium** 

WHY BECOME A PARTNER?

As a sponsor of our platform you will be able to present yourself to a **specific target audience**.

You can reach:

- interested architects
- planners
- real estate investors
- university students
- other potential stakeholders in related fields

1. TO INCREASE INTERNATIONAL VISIBILITY TO YOUR COMPANY AND PUBLISH YOUR PROJECTS
2. TO BE A PROTAGONIST AND HAVE AN IMPACT IN THE SOLAR ARCHITECTURE MARKET THROUGH THE NETWORK OF OUR PLATFORM
3. TO ACCESS TRAINING COURSES AND EXCLUSIVE SUPSI EVENTS AT REDUCED PRICES

VISIBILITY ON THE WEBSITE

DEDICATED SPONSORS SECTION

Section dedicated to the sponsor with the **logo** and the possibility to customise the text and description with a direct link to your company website.

Solarwall SA/AG

Supporting architects and builders from design to completion and beyond

[MORE INFO](#)

Sunage SA

Design, development and production of photovoltaic module

[MORE INFO](#)

Intelligent Solar

Manufacturer of customised aesthetic building-integrated photovoltaic modules

LACHEN HOSPITAL RESCUE WING

This is the new emergency services

BELLERIVESTRASSE 36

Photovoltaic modules are integrated in a triangular steel construction on each

ALTO PROJECT IN ZURICH-ALTSTETTEN

ALTO will be the first residential tower

SOLARCHITECTURE

sun as a building material

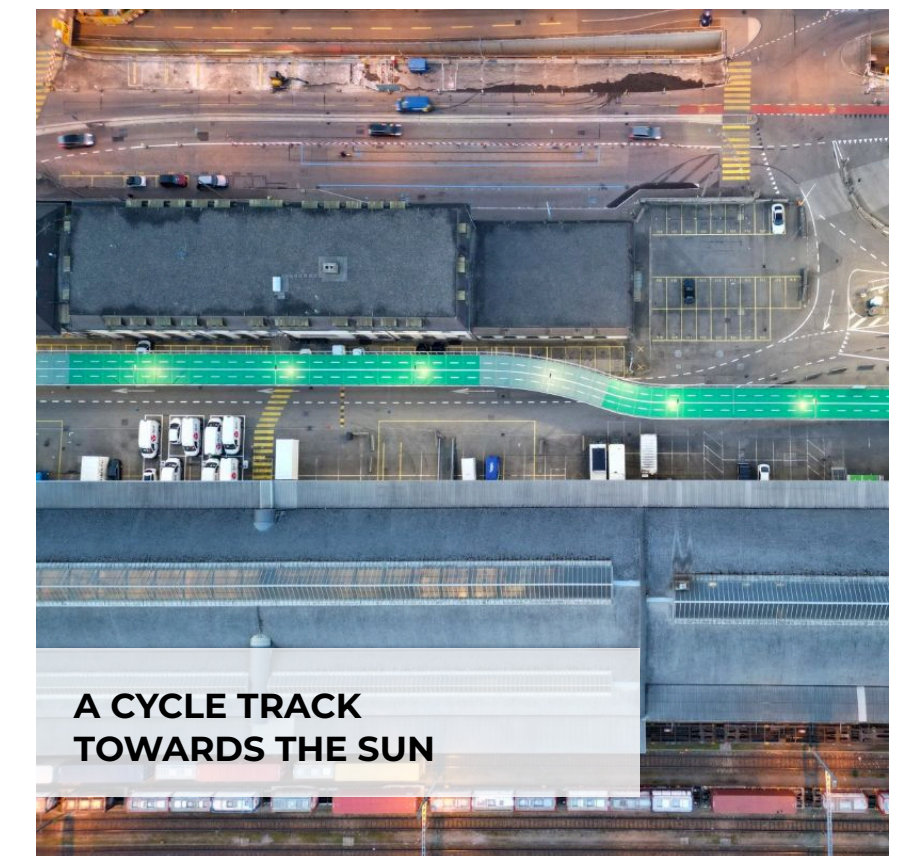

Punctually before the summer comes the second **Solarchitecture newsletter of 2024**. It features examples and news that prove the feasibility and the quality of solar buildings in terms of aesthetics, construction technology and sustainability. If someone forwarded this newsletter to you, you can subscribe on our [Homepage](#).

Wie immer erscheint kurz vor dem Sommer der zweite **Newsletter 2024 von Solarchitecture**. Er enthält Beispiele und Neuigkeiten, die die Machbarkeit und Qualität von Solargebäuden in Bezug auf Ästhetik, Bautechnik und Nachhaltigkeit aufzeigen. Sollte Ihnen jemand diesen Newsletter weitergeleitet haben, können Sie ihn auf unserer [Homepage](#) abonnieren.

NEWSLETTER

HIGHLIGHTS FROM OUR WRAP-UP

Visibility for the content and initiatives of other Solarchitecture members in our **monthly newsletter**, dedicated to our community and followers.

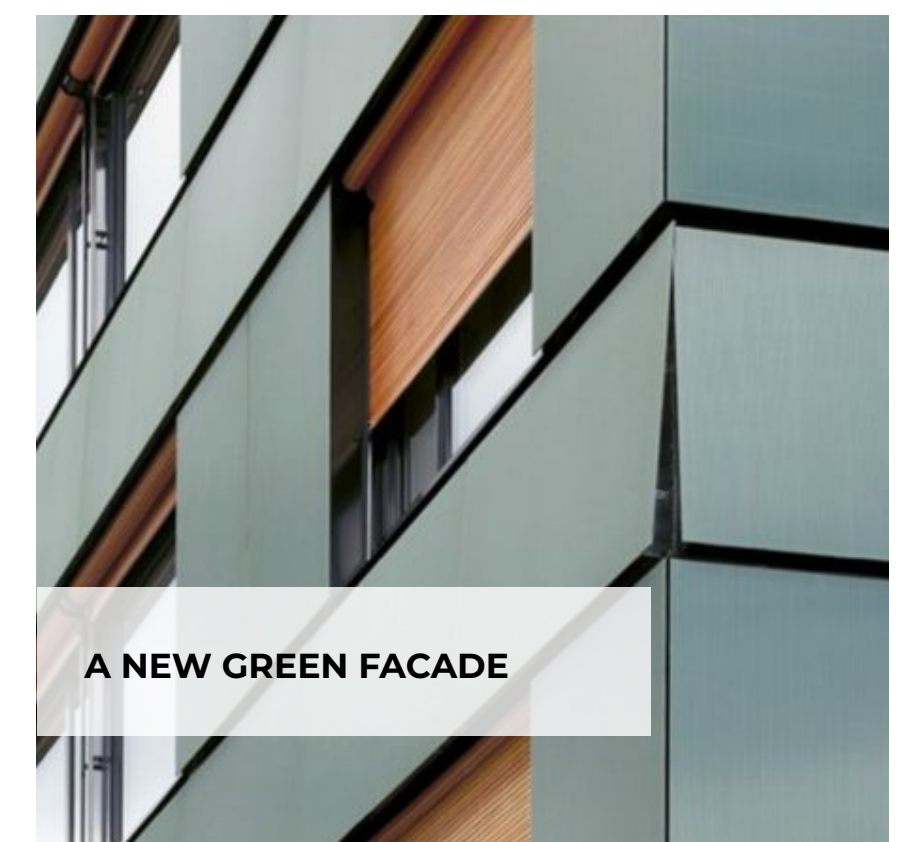

A CYCLE TRACK
TOWARDS THE SUN

LO SCUDO DI STABIO

This new residential building designed and built in Stabio has received Minergie P-ECO-SNBS certification, and a commendation at the Active House Awards 2022. It is the first building in Ticino to achieve the highest Swiss standard for sustainable construction...

Das neue Wohngebäude in Stabio wurde mit dem Minergie P-ECO-SNBS-Zertifikat und einer Active House Award-Auszeichnung 2022 prämiert. Es ist das erste Gebäude im Tessin, das den höchsten Schweizer Standard für nachhaltiges Bauen (SNBS) erreicht...

A NEW GREEN FACADE

NETWORKING & WORKSHOPS

ORGANISE YOUR OWN EVENT!

Thanks to your sponsorship, you can organise **roundtables, workshops or other events** in partnership with Solarchitecture and SUPSI, contributing in an international network and facilitating new partnerships.

You can plan:

- roundtables
- networking breakfast
- meet & greet events
- conferences
- webinars
- and much more

ROUNDTABLE

- collaborative discussions
- focused topics
- small group setting
- interactive format

NETWORKING BREAKFAST

- invite your partners with this informal format and share your ideas!
- 8:45-9:00 networking breakfast
- 9:00-10:00 speech
- from 10:00 networking

MEET & GREET

- social interaction
- attendees from different backgrounds
- follow-up potential
- establish connections

CONFERENCE

- big group setting
- diverse perspectives
- brainstorming and creative thinking
- innovative outcomes

CONTINUING EDUCATION

TRAINING UNDER EASY CONDITIONS

Contribute in education and advanced training courses also with the possibility to partner with **taylor-made courses** and **workshop** for your company.

+

Get a 10% discount for your employees on our Continuing Education course: *SOL(AR)CHITECTURE - Essentials*.

CASE STUDIES VIDEO

CO-CREATE A PROFESSIONAL TRAINING VIDEO!*

Co-create with us and a professional agency, a **video showcasing your solar building**. This video can be crafted to serve as a training resource, offering in-depth insights into installation processes, design, performance benefits and architectural applications of BIPV, making it a powerful tool for educational and promotional purpose.

- high-quality visuals that highlight the aspects of solar architecture
- drone footage, detailed close-ups and dynamic visual storytelling
- see your video in our website “Training” section

*Subject to confirmation based on the building's location
